iver the STANDARD at the proper time and place will be promptly remedied on application at the Publication Office, nort deer to the Bank of British Columbia, Government The Daily Standard. Monday, July 10, 1871. Railway Surveying Party. The Prince Alfred yesterday brought the Railway Surveyors,-nine in numher. The party left Ottawa about the 9th June, making the through trip in about four weeks. The surveys the WILL BESET APART EXCLUSIVELY present year will be confined to the country between the maridian of Rock loops and the foot hills of the east side of the Rocky Mountains,—counceting with the South Saskatchewan and Athabasea giver, and from the latter to the North Saskatchewan. It is not proposed to explore the coast routes till after the line through the Rocky Mountains has been determined; and consequently that part determined; and consequently that part of the survey is not likely to take place till next year. This is a matter to be regretted for during the interim people will be unsettled as to where the Terminus will be located. Everybody will affoat on that subject in all probability for the next two years. Mr. W. Moberly, formerly Assistant Surveyor General of British Columbia before the parties from the boundary line up to the fifty second degree of north latitude, that is as high up as Howse's Pass, at the Big Bend of the Columbia His party will start from Kamloops for the Mines, and forward or Store, according to instructions. And hope by strict attention to business to mer His party will start from Kamloops for Fort Shepherd, thence to Kootenay, and from there north. Mr. McLellan, an engineer from the Intercolonial Railway, will take charge of parties to explore the country north of Howse's Pass. His party will separate from Mr. Mober-ly's at Kamloops, and ascend North river, the north fork of the Thompson, to its source, and from there cross to Tete
Jame Pass, at the head of the Fraser
It is expected that both parties will winter is the Rocky Mountains, though Mr.
Moberly and Mr. McLellan will likely return to Ottawa as soon as winter sets in. Another exploring party, under Mr. Frank Moberly, will work west from Fort Garry to connect with the Rocky Mountain parties. Accompanying Mesers. Moberly and McLellan are Mr. Geo. Watt, Commissary and Paymaster, and Messra. Dickey, Rheanmeaur, Ireland, McLellan, Gillette, and Mahood. In addition, several of our local surveyors will be attached to the survey,—and when the different parties are completed there will not be less than a hundred men employed. If arrangements can be completed, the two parties will leave dur-ing the present week, to commence their explorations; and under any circumstan-ces, they will not remain here longer than till next week. As we stated the other day, the route to the coast will be detersined in a great measure by the pass of the Rocky Mountains that may be selected as the line for the railway. Canadian Summary. [NEWSPAPER DATES TO JUNE 24TH.]

It was remarked last night (June 22d), on the departure of a party of Pacific Railway surveyors, that they were going away in anything but a pacific manner, as nearly every gentleman was armed to the teeth with bowie knives and revolvers. Colonel Dennis, Surveyor General, was in

Toronto, where, in concert with the Secretary of State (Mr. Aikins), he is employing the services of competent professional men for the Manitoba land survey.

The best raft of square timber that has

come down the Ottawa this senson is that belonging to Mr. R. C. Mills of Renfrew. It was made on the Madawaska and consists o 140 cribs of white pine, averaging 65 feet, and about 17 inches girth. He expected to

get it all through the slides in time to leave Ottawa for Quebec on the 29th June. Sir George Cartier was being feted at the Niagara Volunteer camp. The Mayor and Corporation of Niagara presented him with an address. He was to have held a level at which 400 officers were to be present.

A fire occurred in Montreal on the alt., covering in surface of ground three acres; loss \$50,000. Mr. Gauvran's mill was destroyed, and the lumber yard partially.

The Mayor of Montreal issued a proclamaon against the use of fire crackers on Do minion day. All the chief city press con-tained editorials on the Pope's jubilee.

The twelfth annual Episcopal Synod pened on June 20th for the Montreal discess. The Metropolitan delivered the opening ad-lress, in which he spoke of the work of the

burch during the past year.

Col. Gray was said to be an applicant for sposition of Lieutenant-Governmen of Brit-The Prescott election was declared void the respondent, Mr. Hamilton, admitting, through his counsel, Hon. J. H. Cameron,

at such a case had been established. The Sault Ste. Marie Canal is gradually approaching completion. Already there have been excavated 20,000 cubic yards of rock and 4,300 cubic yards of earth. The sans is to be lined with timber and not with stone, as according to the original ides. An additional set of locks are to be constructed, and a further appropriation of \$200,000 will be made for that purpose. The cost of the entire improvement will amount to \$2,600,-

By an order of Council it is declared that the Red River, in the Province of Manifoba, from the point of its intersection with boundary line between the United States and the said Province of Manifoba, Canada, to its junction with Lake Winnipeg, shall be comprised within the limits of the port of Winnipeg.

prised within the limits of the port of Winnipeg.

The value of imports for the month of April, 1871, was \$8,869,714, sgainst April, 1870, \$5,938,957. The duty in April, 1870, was \$1,046,000; duty in April, 1870, was \$991,000. Value of exports, April, 1871, \$2,773,632; April, 1870, \$4,624,738.

The volunteers of the Nisgara camp, and the other camps throughout the country, seemed to enjoy themselves amazingly. There were games and sports of all kinds, is which the officers and men joined; excussions, horse-racing, parades, balls, prize shooting, &c.

The Jubiled or Twenty-fifth anniversary of the reign of Pius IXth, was celebrated in Toronto with much rejoicing.

A collision occurred on the Grand Trunk on the 22d, near Ernestown, by which 13 persons were seriously injured, and several more were bruised.

tempoary, the Guardian, gives later news from Big Bend. There were only three companies at work on French Creek and only one taking out much,—the Welch Co.—earning \$20 per day to the hand. The others are re-tarded by high water. Three or four companies are commencing operations on McCulloch's Creek. The "49," on her last trip from Colville had to take back 2000 lbs. of freight, chiefly flour, which was not wanted.
..... The population of Mud Bay is increasing
four or five families per week, and there are fteen other families on the way from Dacotah. Crops about the Bay are looking finely. Farm houses and barns are being built. There about 50,000 acres, are still open for preemp-tien, of most excellent land. Game is plentiful there The Fourth of July was spent by the American citizens by giving a salute at The first step ought, probably, to be towards sunrise, and a band played American national airs; Scott's saloon was illuminated; at noon 37 guns were fired, when cheers were given for the President and Queen Victoria. At 2 o'clock there were games and sports. The roof of the " Retreat," at Sapperton caught fire and the house narrowly escaped uction Dominion Day was observed by a display of flags Gerow & Johnson received two mails from Cariboo in one week.The old revenue station narrowly escaped destruction by fire, on Thursday last.

THE PONTIFICATE. -There was an extraor dinary religious celebration, both in point of number, and completeness of arrangements, at San Francisco on yesterday week in honor of Pio Nono, the 257th Pope, who, for twen-ty-five years has occupied the Sea of Rome. A large procession collected at the Catholic Churches, which was under the direction s, which was under the direction of Grand Marshri James R. Kelly and a number of aids, and at 1 o'clock moved in order through the principal streets to the pavillion, where exercises commencing with the Ameri-can National Anthem, were gone through with. At the close of the exercises a salute of 25 guns was fired, which was the signal for the ringing of the bells of the Catholic churches throughout the city. In the evening the churches and houses of the Catholics were illuminated. The procession embraced many features of a novel and interresting character, prominent among which were 19 triumphal cars, each representing one century during which the Church has existed. They bore in large characters the names of the Popes in the various centuries, and the number of banners displayed on each car represented the number of Popes in the century of the popes in the various centuries, and the number of banners displayed on each car represented the number of Popes in the century of the population of the popul tury the car was intended to typify. Should Phas the IX live until the 25th of Augustnext he will have occupied the Holy See Ionger than any of his predecessors.

THE ZEALOUS .- The afternoon previous t the departure of the Zealous from San Franeisco, which was on Friday week last, the came up in the Prince Alfred, yesterday, to Shop at Fred Payne's, on the sunny side of ment by applying to Dalby & Wilson, Govern officers gave a grand hop on board.

The Order in N. W. is in a flourishing condition.

Peel has been appointed agent for the Widow and Orphans Life Assurance Association. RETURNED .- We have much pleasure in welcoming back Mr. W. Moberly, as one of the Dominion engineers to superintend parof the surveys for the Railway. When Assistant Surveyor-General in 1865, he had charge of surveying parties in the very track of country that he will now explore for the Railway, -and bad it not been for the insane people who kept a government at New West minster, and spent the public money useless

ly in subsidizing a direct steamer, he would, in all probability, have completed in 1866 and 1867 all the explorations now required. As his explorations for the overland road were stopped, he left the Colony promising never to return till the Colony was confederated and the overland road to be opened. He has faith fully carried out his design ; and now returns to help on to success an undertaking of which he was one of the earliest and most enthusi astic supporters.

CRICKET. - Whenever the British warsteamer Zealous is in this port, there is a revival of interest in the truly noble healthful game of cricket. It is infinitely more agree able to have her send ashore a few cricket balls than it would be to receive any of her cannon balls. An effort is to be made to establish the game on such a footing that the interest in it may not be determined by the arrival and departure of the Zealous relieving the game of the decidedly English strain which is given it in this city. It ought to be Americanized. In Philadelphia, New York, and other large Eastern cities, Ruglishmen do not monopolize the game. We want some American cricketers, so that when the jolly Zcalous fellows, or any other players come here, they can meet men not of their own nationality in a friendly contest .-S. F. Bulletin, 1st inst.

FROM SAN FRANCISCO .- The steamer Prince Alfred, Capt. Scholl, arrived yesterday mornng at 5 o'clock, 5 days and a balf from San Francisco, with 110 passengers, including 13 Canadians and 12 railroad surveyors, and 150 tons of freight which she discharged last night. She will leave for Nanaimo to coal at 10 o'clock this morning. While there she will go on the beach for the purpose of having her bottom cleaned. She will leave Esquimalt for San Froncisco on Friday afternoon next. Captain Scholl reports severe gales and a heavy sea from the North West during the entire passage.

The Treaty of Washington and the San Juan Question.

The absurdity that the Emperor of Germany decided the SanJuan Question in favor o the United States, as reported by telegraph few weeks since, was apparent on the face of it. The question could not have been submitted to him, nor could be have cognizance of it, until the treaty had been ratified by the Queen. This has been done, and the ratifications were exchanged ten days since. It remains now for both governments to ask his Majesty to act as arbritator, in accordance with the text of the treaty which provides that on such acceptance, each of the two Governments shall lay before the Enperor a written or printed case, accompanied by the evidence of ered to support the same, within six months from the date of the exchange of the ratifications, and a copy of the case and evidence shall be communicated by each Government to the other. It goes to provide that after such communication each Government shall have the power of laying before the arbitrator a second and definite statement, in reply to the case of the other side, and six months further are allowed for putting in this second paper. It will thus be seen that no decision can be obtained for the next six months, and

probably not for twice six months. R. Roberts, Tailor, Government street, make to order for the Lowest Cash Prices.

TAYLA LANDING, 18th June, 1871. EDITOR STANDARD :- As the Expressman

Borron STANDARD:—As the Expressman, Mr. P. Reid, is about to start for Victoria I take the opportunity to send you a few items.

The news from the diggings is encouraging as several new prospects are reported, though the water on Germansen Greek is so high that miners cannot do much at present; however, every one feels satisfied with the prospects, and all want to stay and prospect if they can, but at present grub is expensive and likely to be so, as long as they, the miners, will have to depend upon the Muuth of Quesnelle route for supplies; and if the Skeena route is not opened up now, many men will have to leave; for to pay the expense of living, they must have good diggings; a man would starve on small diggings here, that would be a fortune even in Cariboo. Fortunately most of the men who came here this spring brought 3 or 4 weeks supplies with

came early, up the Stuart River; though late some freight boats started and arrived here last week. Most of the early and light loaded boats went by the Salmon River, and a few tried the Giscome Portage. Men by the early boats via Stuart River got in first; then those by Salmon River; and about a week later, those by the Giscome Portage. The men by Salmon and Giscome Portages, had all the supplies they took with them on to Germansen creek, while those to Tatla had only what they could pack over the Portage from Tatla, or what they could hire packed by Indians, who charged as high as 20 and 30 cents per pound. However all the men who came by Giscome and Salmon Rivers tell of the hard work in shallow and small sloughs The schooner Robert Cowan was to sail, day and rivers leading into McCloud's Lake from after the Camden. A small portion of the the portages, and say that it never can be cargo of the Camden is for the Sound, and she made a freight route, and it never will pay any one to go that way except when provision are high and scarce; on the diggings in the spring, so the money that the government are spending on the Giscome Portage had better have been thrown into Fraser river, than spent there; for then none would have been deceived. It is undeniably the biggest humbug the Stipendary Magistrate, and they were of the season and even beats the steam wag-further remanded for eight days. gons. When the boats left the Mouth of Quesnelle, the price paid for provisions was per pound, beans, 14 cts.; flour, 121 cts; bacon, 45 cts.; gum boots, \$12 00 per pair, scher things in proportion. These are the prices paid for all that is in the market here at present, to be brought four or five bundred miles and sold to miners. The prices here are beans, 35 cts. per lb.; flour, 35 cts.; bacon, 871 cts.; gum boots \$20 00 per pair, and over 100 miles from the diggings These are the prices that will prevail here as long as we have to rely upon colonial produce or bring them over a route 700 or 800 miles

from the sea board. So there need be no surprise if there is a great stampede from the diggings, for there must be about 800 men into the diggings now, to be fed at those high keep coming by the Skeens route and all speak well of it and say a waggon road might be built from the forks to Tatla Lake, via Babine River and Frying Pan Pass, at comparatively small expense; and that a good trail might be cut through in a week if pro

Mr. Dewdney arrived here by the Frying Ox Dir lt was thought at Ottawa that Pan Pass about a week ago, and is now gon to examine the trail between and the Skeena route seems to be left to make THE little vessel the City of Ragasa, of 13 to bear against it. But surely there is somewould sacrifice the interests of a large community of struggling men who are prospect-ing a new and wild country, to gratify the avarice of our protected interests, more remote than Vancouver Island.

About 60 animals have arrived here, and have commenced packing between here and Hog'em, and probably about 60 more will be here in the course of a week or two. So packing is down in price from 30 cts. to 15 cts. with a downward tendency.

Yours, etc. An Extraordinary Execution.

[From the Centralia (Mo.) Guard.] We are indebted to Mr. James A. Ferguson. of Jonesburg, Mo., who lately arrived home rom Texas, for the particulars of the following extraordinary occurrence, which took place Stable Gear. a short time since in the Indian nation: A certain Indian of the Choctaws was som

years ago suspected of killing another Indian of his tribe, but for lack of sufficient proof was not arrested. Afterward he commit a wilful murder, and was promptly arrested, tried and sentenced to be shot to death. He asked for twenty days in which to prepare and visit his relatives and friends, and gave his word of honor as a brave to return at the appointed time. Whereupon he was released and allowed to go forth without a guard or Utensils.

At the expiration of the twenty days, according to appointment, the hour for the execution arrived, and the Indian, true to his word, at the very hour and minute galloped up to the place where the sentence was to be carried out, in company with three of his sisters and three brothers, all appearing as cheerful as though they had come to a dance or frolic. The coffin was then brought on the ground, but some one remarked that it was too small, upon which one of the doomed Indian's brothers told him to lay down in it, and measure, which he cheerfully did, and laughingly said, "It fits all right." The crowd meanwhile appeared to be in the most cheerful spirits, and cracked jokes and laughed. At last, when all was ready, the doomed man was ordered to sit on the ground. A handkerchief was then placed over his eyes by his sister. While the Sheriff held one hand, one of the condemned Indian's brothers held the other on each side Victoria, next door to London House, begs to of him. The Deputy Sheriff then stood in an inform his friends and public of Victoria genof him. The Deputy Sheriff then stood in an erally, that he has just received, direct from demued, with a rifle. A black mark was then made over the Indian's heart, with spittle and powder, by his brother, while the Deputy Sheriff reloaded his rifle, and at a signal he tool steady aim and fired, and pierced the centre of the mark. The Indian, with a few struggles, fell back dead, with his brother and the Sheriff still holding his hands. No one seem-Latest Styles.

New Lisbon (Ohio) is certainly a reable town for senentions. Whether t able town for semations. Whether this towing to the peculiarities of the people raising there and in the immediate vicinity, or extreme fertility of imagination on the part local journalists of the place, we do not prosume to say, but verily, some strange yar originate thereabout. The latest and perha most remarkable is the following, which from the New Lisbon Journal:

There is a family living in the east end of St. Clair township, this county, near the State line, whose name has escaped our recol-lection, well-known in the community as respectable people, wherein was a girl of some 16 or 17 years of age, apparently ill with chille and fever, but gradually kept growing worse until the doctors pronounced typhoid fever, but failed to cure. And she lay all last winter with various symptoms of disease, such as dyspepsia, liver complaint , tape worm, etc., but the doctors did not and could not tell Fortunately most of the men who came here this spring brought 3 or 4 weeks supplies with them, consequently sales by the traders have been small, and but few men have had to return for want of grub. However, as the private supplies get used up the demand for provisions will increase, then we will see the necessity of finding a shorter and cheaper source of supply than the Fraser river route farnishes.

The first men who came up the Skeena river got in here two weeks ahead of any who came by Fraser river. The canyon above the Mouth of Quesnelle, was blocked with ice, will about the 24th April. A few boats only came early, up the Stuart River; though late some freight boats started and arrived pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though there had been an pins are all bent, as though the came and pins are all bent, as though the came and pins are all bent, as though the came and pins are all bent, as though the came and pins are all bent, as though the came and pins are all bent, as though the came and pins are all bent, as though the came and pins are all bent, as though the came and pins are all bent, as though the came and pins are all bent, as the came and pins are all bent, as though the came and pins are all bent, as though the came and pins are all bent and could not tell what the matter.
